#### Calendar Year and Fiscal Year Considerations

- 1. 1099 income is reported in the year that the payment is made, not when the purchase is made.
- 2. Only COFRS JV transactions that show as <u>ACCPTED on the COFRS</u> <u>SUSF Table on or before December 31</u> will be picked up for 1099 reporting.
- 3. If your JV is not accepted by the last day of the year, the manual adjustments to the vendor income must be made using the COFRS 99TX and 1099 Tables.
- 4. JV transactions may be entered for 1099 purposes without regard to the fiscal year close *if the debit and credit side of the entries have the same object code* (the amounts net and do not affect your general ledger balance).

#### Income Types -- Why They Are Important

Several distinct categories of income are reported on Forms 1099. The different categories are reported by income type. Each income type is reported in a different box on the Form 1099. For example, income type 1 would be reported in box 1 on the form.

It is important that the vendor's income is reported under the correct income type (in the correct box) because there are income tax implications to the 1099 recipient. Certain amounts shown on the form may be subject to self-employment tax. The 1099 recipient reports the different income types to the IRS, using the instructions printed on the Form 1099.

#### The Relationship Between Income Types and Object Codes

Object codes are defined on the OBJT Table as to which Income Type they belong. Payments are sorted by object code, then summarized into the different income types to be reported on the appropriate Form 1099. You will refer to this chart when adding records to the COFRS 99TX Table. The income type is a key field in the header.

	amount	If payment is made to an attorney in connection with legal services and the attorney fee cannot be determined, the total amount paid (gross proceeds) must be reported in this box with a new Code A.

#### Payments to Corporations for Legal Services\* are Reportable

The exemption from reporting payments made to corporations no longer applies to payments for legal services. All payments in the course of a trade or business of \$600 or more for legal fees to attorneys and law firms are reportable on Form 1099-MISC, regardless of the entity type of the recipient. These payments are still reported in Box 7. SCO has revised the Substitute Form W-9 to ask corporate vendors if legal services are provided.

\* Legal services are defined by the IRS as all services performed by, or under the supervision of, an attorney. 1099-MISC reporting is not required for payments to attorneys acting as a settlement agent in connection with the closing of a real estate transaction.

#### Gross Payments to Attorneys are Reportable

Payments to attorneys are reportable as "Gross Payments" when it is not known how much of the payment is the attorney fee. This type of payment is reported under the attorney's TIN regardless of whether the attorney is the exclusive payee. This type of payment is the result of a settlement agreement or judgment. The payments are reported in Box 14 on Form 1099-MISC.

#### Exceptions to 1099-MISC Reporting

No reporting is required for these payments:

- To Corporations unless the payments are for (1) medical services, (2) legal services, (3) or gross payments made to attorneys and law firms
- To Government entities,
- For merchandise, supplies, telegrams, telephone, freight, storage fees,
- Rent paid to real estate agents,
- To informants as an award, fee, or reward for information about a criminal activity if the payment is made by a federal, state, or local government agency,
- Scholarships or fellowship grants, tuition reimbursements,
- Travel and parking reimbursements to independent contractors, if accountable plan requirements are met,
- To a tax-exempt hospital or tax-exempt extended care facility or to a hospital or extended care facility owned and operated by the United States (or its possessions), a state, the district of Columbia, or any of their political subdivisions, agencies, or instrumentalities,
- Difficulty-of-care payments to foster care providers that are excludable from the recipient's gross income,
- Foster care payments if paid for not more than 10 children under age 19 and not more than 5 individuals, age 19 or older.

#### 1099 Reporting for Purchasing Card Transactions

Current tax law generally requires that purchasing cards payments follow the regular 1099 reporting requirements.

Agencies are responsible for adding 1099 reportable payments to vendor income totals for proper 1099 reporting.

Because purchasing card payments aren't picked up by the COFRS 1099 Reporting subsystem, you may have to do some additional accounting work in order to meet certain criteria regarding IRS 1099-MISC reporting.

To decide if additional accounting entries are necessary for 1099 reporting purposes, two questions must be answered.

#### 1. Is the type of purchase 1099 reportable?

- If NO, no additional accounting for 1099 purposes has to be done.
- If YES, then the following question must be answered.

#### 2. Is the Vendor a reportable entity type?

- If NO, no additional accounting for 1099 purposes has to be done.
- If YES, the payments must be captured for 1099 reporting.
  - a) A vendor record must exist or be added to the COFRS VEND Table.
  - b) A COFRS JV transaction must be entered using the vendor code and a reportable object code on the debit side of the entry. Do not use the vendor code on both the debit and credit side s of the entry or the amounts will net and will not be reflected on the 1099 reports.

#### Reportable / Non-Reportable Payments

- 1099 reportable payments are defined on the COFRS *OBJT* Table. Payments for Merchandise Payments made to vendors for merchandise, telegrams, telephone and storage do not need to be reported on Form 1099.
- Payments for a combination of merchandise and services are reportable. For example, if one were to hire unincorporated contractor to repair a roof at a cost of \$1,000 consisting of \$700 for materials and \$300 for labor, the entire \$1,000 would be reported on Form 1099. The authority for this position is Revenue Ruling 81-232.
- Special Rule for Legal Services Payments made for legal services are reportable regardless of whether or not the entity type is a corporation.
- Special Rule for Medical Services Payments made for medical services are reportable regardless of whether or not the entity type is a corporation.

#### 1099 Reportable Entity Types

• Sole proprietorships, Individuals; Partnerships; LLCs (Limited Liability Companies); LLPs (Limited Liability Partnerships); Trusts; and Estates.

#### Non Reportable Entity Types

• Governments; Corporations (unless medical or legal).

#### Adjustments to Prevent an Employee from Getting a Form 1099

There are two ways to decrease the income amount for an employee whose reimbursements were misclassified:

- 1) Prepare a JV with the employee's vendor code, decreasing the amount of the reportable object code shown on the employee's *T9902R 1099 Turnaround Report* record, and reclassify the amount(s) to a correct object code that is not reportable;
  - NOTE: The JV document must be accepted on SUSF before the last working day in December.
  - This type of adjustment <u>will be</u> reflected on the *Final T9902R 1099 Turnaround Reports* that are distributed to agencies the second working day in January.
- 2) Manually adjust the reportable income to zero on the 99TX and 1099 Tables.
  - NOTE: Adjustments to the 1099 Table can't be made until the table is populated on the first working day in January
  - This type of adjustment will <u>not be reflected</u> on the *Final T9902R Turnaround Reports*. The adjustments will be shown in the final T9904 reports which are issued immediately after the forms are printed.
